Declaration of the Director of the Holy See Press Office, Matteo Bruni

In recent days a ninth case of Covid-19 has been added to the eight already recorded in Vatican City State and among the employees of the Holy See. The person was admitted to hospital for observation, and the appropriate disinfection was carried out and checks made among those who had had contact with the person concerned on the single day of presence in the workplace in the two weeks prior to the positive test result. These further tests all yielded negative results.
